

github-api

Version 6.2

eu90h

August 6, 2015

```
(require github-api)      package: github-api
```

Before you may make requests to the github api, you must create an identity.

```
(github-api lst) → (listof  
                    (not/c (one-of/c 'cow)))  
lst : list?
```

Replaces each 'cow in *lst* with 'aardvark.
